

## Exact PipeCut 280E Exact PipeCut 360E

Maximum wall thickness for plastic pipes and cast iron pipes with concrete layer

Cutting depths in this table concerns saw blades diameter 165 mm

**TCT P165, TCT 165, Cermet 165, Cermet X165, Diamond X165**

The figures in the table are theoretical and there might appear small tolerances between different units.

Pipe $\varnothing$ OD / mm	<b>280E</b> Max pipe wall / mm	<b>360E</b> Max pipe wall / mm
